DANFOSS CONDENSING UNITS

Danfoss Optyma Condensing Units: Dependable.

The optimum choice in condensing units - Danfoss condensing units offer a complete range, from 1/6 to 13 1/2 hp. This optimum range is durable and compact, with components and construction that ensure extended lifetime reliability. A wider operating envelope delivers optimum performance even at higher ambient conditions.

Optimum range and optimum reliability are matched by optimum support. And Danfoss has an authorized wholesaler network and local Danfoss sales representatives to assist with product selection. The new Danfoss condensing units are easy to select, install and maintain.

Danfoss Optyma condensing units are not just dependable; they are Danfoss Dependable.

Advantages

- Condenser designed for dependable performance in the toughest of high ambient conditions
- Complete line from 1/6 - 13 1/2 hp
- Units available for R134a, R22, R404A, and R12 replacement refrigerants
- Easy access service valves on all units
- Universal High/Medium/Low range in R-404A fractional units
- Compact design
- 100% factory tested

Fractional

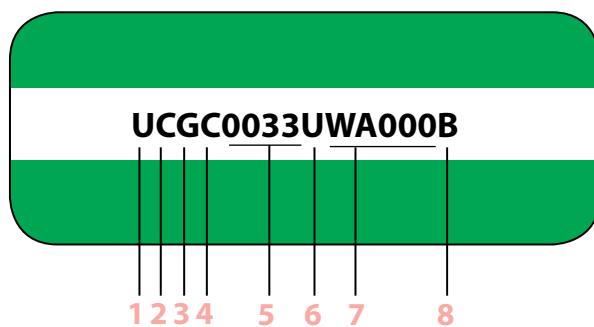

- Quiet, efficient hermetic compressors, factory mounted and factory wired
- Base mounted service valves with access port
- Durable 14 gauge painted steel base plate
- Metal fan shroud and guard

Integral

- Dependable refrigerant cooled hermetic compressors (1 1/2 hp and above)
- Low pressure control on 1 hp unit
- Dual pressure control with universal Auto/Manual reset on 1 1/2 hp and above
- Self-regulating PTC crank case heater on 1 1/2 hp and above
- Lifting slots for easy and safe handling
- Versions available for indoor and outdoor applications
- Compressor sight glass on 1 1/2 hp and above
- Receiver with liquid shut-off, and fuseable plug standard on all units
- Durable 12 gauge painted steel base plate
- Pre-wired metal electrical box
- Cartridge fan cycling control on 1 hp to 3 hp single fan units
- Units larger than 3 hp use KPU fan cycling control
